PROFESSIONAL SUMMARY

Backend Developer with around 3 years of experience, specializing in building microservices & serverless architectures using AWS & Node/Python with hands-on expertise in Lambda, API Gateway, and DynamoDB with a strong focus on cost optimization, automation and delivering high-performance, cloud-native solutions.

TECHNICAL SKILLS

Programming Languages: Node.js, Python, C++ , JavaScript

Tools: Postman, Grafana, CI/CD, Git, GitHub, Bitbucket, SonarQube, Vs Code

Cloud: AWS(Lambda, IAM, API Gateway, SNS, SQS, CloudWatch, CloudFormation, EventBridge, Athena, Cognito, S3)

Databases: Amazon DynamoDB, Amazon Athena, SQL/MySQL, NoSQL

Concepts: Microservices &, Event-driven Architecture, DSA, System Design, OOPS, Serverless, Cost Optimization, Logging and Monitoring, REST APIs, CDK

Testing & Quality: Pytest, Unit Testing, Code Coverage, Linting

WORK EXPERIENCE

Tata Consultancy Services - Backend Developer

June 2023 – Present

Serverless Backend Development with AWS

- Designed and implemented scalable serverless microservice and event-driven applications in Node by leveraging AWS Api Gateway, Lambda, S3, SQS, EventBridge and DynamoDB, reducing infrastructure costs by **30%**.
- Optimized monitoring & compliance using CloudWatch & Grafana, improving **observability by 40%**.
- Wrote comprehensive unit tests for Lambda functions using Jest, achieving test coverage of **85%** and improving maintainability.

CloudWatch Optimization

- Developed a Python-based automation framework to manage AWS CloudWatch log retention policies, reducing manual **intervention by 90%** and cutting log storage **costs by 73%**.
- **Saved \$2,500/month** by cleaning up **1500+** log groups using automated cleanup scripts.
- Enforced **100% compliance** on log retention policies on **30+** AWS accounts by automating the setup of cross-accounts.

PROJECT

Inventory Management System

- Built a secure, serverless system in Node.js using AWS Lambda, API Gateway, DynamoDB and Cognito.
- Deployed CI/CD pipelines using GitHub, and Serverless framework .
- Features: Secure user authentication, CRUD operations (Create, Read, Update, and Delete), real-time low-stock alerts via SNS.
- Tech Stack: Node.js, AWS

CERTIFICATIONS

- | | |
|-------------------------------------|-----------------------|
| • AWS Certified Developer Associate | Sept 2025 – Sept 2028 |
| • GitHub Foundations | Feb 2025 – Feb 2028 |
| • AWS Certified Cloud Practitioner | Nov 2023 – Nov 2026 |

EDUCATION

Shri Vaishnav Vidyapeeth Vishwavidyalaya, Indore

B.Tech in Computer Science - CGPA: 8.7

July 2019 – June 2023
